A communication was received from the committee of Indian concerns of Baltimore Yearly Meeting in which it was stated that the government desired to procure suitable persons from among the members of our Society with the view to inaugurate a more humane and pacific policy toward the Indians. The subject claimed the deliberation of the meeting and called forth

much exercise and sympathy with the concerns and desires were expressed that the work might go forward. In consequence of the limited time between the holding of this meeting and the general conference to be held in Baltimore on the 17<sup>th</sup> of this month, it was concluded that the meeting could take no action before that time that would result in furthering the cause and in order that the subject should receive prompt attention, it was thought best to refer the whole subject to the standing committee of the Yearly Meeting on Indian Concerns. Signed by direction of the Meeting, John J. Cornell, Clerk.

The sub committee reports that they have given attention to the subject of the Manual Labor school for the Indians at the Santee Agency & through deligates have consulted with Ohio Frinds com<sup>ty</sup> produced the following report which is united with by our committee

The sub committee appointed to consult with a committee from the Indian committee of Genesee Yearly Meeting having met and considered the subject are of the judgment that for the present year a Matron who shall be principal of the school - One female teacher & one man to have the general care and direction of the boys would be necessary & with the other necessary employees

#### 47

would be placing the Institution on as equimonical a basis as woul[d] be consistant with its. Best interest

In regard to matureing the plans of operation for the school we think it right to suggest that it would be best to open correspondence with Barclay White the Sup<sup>t</sup> of that Sup<sup>n</sup> Tendency In connection wit Jos. Webster and propose that a committee designate some suitable friend to that said correspondence

At the suggestion of our friend Samuel M Janney (who is presently with us) He would conclude that the sum of \$5,000. Is as low an estimate as can be made for the expences of the Institution for the first year and that to come within the bounds of this sum we think that the

number of students should be restricted to 10 or 15 of each sex Believing that it would result at a future advantage of the

#### 48

Institution to commence with a small number

To the Indian Committee of Genesee Yearly Meeting

The executive committee to whom was entrusted the general business of the committee report that little has been required of them

A proposition was received from the executive Committee of the convention of seven Yearly Meetings to unite with other Yearly Meetings in defraying the expenses of sending an instructor in domestic affairs to the Santee Agency As the proposition, only embraced a brief time and Philadelphia Yearly Meeting did not conclude to unite in the proposed action. Your Executive Committee did not feel warranted in returning a favorable answer Several reasons led to this conclusion We did not believe from past experience that mere temporary effort pursued for a few months would result in any appreciable good.. That to effect any permanent change for the better in the domestic habits of the Indians the effort must be steadily pursued

**[An intentional 2nd exposure of page 115]**

116

till the old habits were eradicated and new ones had been formed We believe that this can only be properly done by government assuming the payment of the cost and extending the instruction generally among the Indians

Other reasons will readily suggest themselves to the Committee

No other subject has claimed the attention of the Executive Committee and the field of labor in which we may engage with profit is the words of the nation sums sorrow

Respectfully submitted

Dear Friend - Four of our Committee of Baltimore Yearly Meeting on Indian Affairs Visited Washington last week and had very Satisfactory interviews with the Secretary of the Interior. The Indian Commissioner and Chairman of the House Committee on Indian Affairs. The Matron question was fully discussed, and we feel encouraged from the assurance given us, that they will report in the Indian appropriation Bill the present Session a Sum Sufficient to pay the Salaries of at least two if not five Matrons for the more advanced Tribes.

The Indian Commissioner in examining his list of Agencies, Said, there were 15 Tribes that had their lands allotted in Severalty and were progressing more or less Successfully. We could not recommend the appointment of so many, Not Knowing their condition. We however urged the Appointment of two or three as an experiment, fully believing that a Matron at Santee would prove a Success

**118**

The Commissioner Said that if we would Make a special application for one at Santee and perhaps one at the Omaha & Winnebago Agency, and the Agents there would ask for their appointment he would recommend that Congress make an appropriation for the payment of their Salaries. As an inducement to grant us one at Santee and perhaps one for the Poneas, or Omahas, we ~~would~~ proposed to furnish the Matron with a home at the Agency, and the necessary equipments Horse & carriage, Interpreter to enable her to fulfill her duty in visiting the families &c a cost of \$250 to \$300 probable, per annum.

This amount we thought Friends of the Six Yearly Meetings that have been favourable to the project would contribute, in case the Government pays the Salary about \$700. Will Friends of Genesee be willing to pay their Quoto of the Sum I have indicated for the equipment of one or two Matrons in case Congress provides for the payment of their Salaries?

Hastily they friend. LWBrown.

Dear Friend - as thee is aware, Our Committee of Baltimore Yearly Meeting on Indian Affairs, have been earnestly working with the authorities at Washington and with Congress, to procure an appropriation for the payment of the Salaries of a number of women, to be designated as Matrons, for the especial purpose of Visiting the Indian Women, in their houses

and instructing them in housekeeping and their domestic duties. - A year ago, we visited Washington, - had very Satisfactory interviews with President Harrison, Secretary Noble and the Commissioner of Indian Affairs, and were encouraged to believe that the New Administration would favor our project and recommend to Congress, Such an appropriation. - The Indian Commissioner true to his promise and Convictions wrote a very Strong Letter to the

### 120

Secretary of the Interior recommending that an item be inserted in the Indian Appropriation Bill of \$7.200 for the payment of the Salaries of Ten Matrons, for the more Advanced Tribes at \$720, per annum With Such a prospect, we at once concluded to place a Matron in the field at Santee Agency and at Agent Hills request appointed Marie L. H. Steer, wife of Joseph M. Steer, who has been many years engaged in Indian work at that Agency to that Service at \$75. Per month. She to board herself, furnish all the necessary equipments, and devote her time in the endeavour to elevate the Indian women. - We engaged her for three months with the hope that we could continue her in the Service at least Six Months, if not for the year or longer - Accordingly, I wrote to the Six Yearly Meetings omitting Philadelphia, to Know if our project met their approval, and would they be willing to Contribute their respective Quoto<sup>s</sup> of \$200, proposed to be raised at this time, to defray the expense of the first three Months Service. All except your Meeting & Indiana have promptly responded and remitted their

### 121

respective Quoto<sup>s</sup> - I have no doubt Indiana will respond, as they have heretofore heartily approved of employing a Matron to instruct and elevate the Indian women. - Marie Steer =, has written Several Letters to us, giving Some interesting particulars, of her work. She States a number of them have promised her they would Comply with her instructions and She feels encouraged. Our Committee have Sent her \$50. with which to purchase Such little matters which Se desires presenting to those who are trying to put her instructions into daily practice - I must now State that although the Commissioner So warmly recommended the appropriation mentioned, to Secry Noble, that Official failed to agree with the Measure and declined to made any Such recommendation to Congress. I regret to Say that Secry Noble has shown himself to be more of a poloticean than a Statesman not only has he refused to aid us in getting an appropriation for Matrons, but without any notice to Us or Agent Hill, he had pereruptorily

### 122

removed our excellent and worthy Agent Charles Hill and appointed a Nebraska politicean in his Stead! Not discouraged, we have two members of Congress from this County and the adjoining County of Chester Brosires & Darlington, both members of our Society, who have interceded with the Com on Indian Affairs of the House who are very favorable if only the Department would recommend the Measure, and Although they are opposed to inaugerating Any Neco? departure without the approval of the Secry of the Interior. The Chairman of the Committee Stated they would not object to the employment of one Matron as an experiment, provided no charge was made for a residence for the Matron. I immediately wrote to our Member that we would cheerfully provide all necessary accomodations to carry on the Work and had a Matron in

the field, all we asked was that Congress provide \$720 for her Salary. Some of Our Committee propose visiting Washington in a very few days and endeavour to Secure the Salary of our Friend, and in that case we can readily Keep her at work for a year at which time I think her labors will prove to the most incredulous, that Matrons are indispensable to the uplifting of those poor creatures, from the degradation they long been Subject to, a higher plain of Civilization -

**123**

Report for the year 1888 exceeded \$20.000. I do not remember the amount they expended the past year but it must have been large.

The quoto of Genesee Yearly Meeting under the present aportionment (omitting Philadelphia) will be \$9. To the \$100. If your Committee approve of the work please remit me \$18. Quoto of \$200 proposed to be raised at this time which will pay to 7th month next, by which time we Shall Know whether Congress will aid us or otherwise.

In a Letter rec<sup>d</sup> to day from Marie L. H. Steer She States that Charles Hill, although he does not think his removal comes under the rule of "Civil Service reform" ye he Says his Successor appears to be a very gentlemanly man and wishes his aid and counsel, he thinks he will prove himself a true friend of the Indians all which, we are pleased to hear.

Such my dear friend is about the Status of our Indian work at present, which I have hastily Stated, presuming your Indian Committee would have a meeting prior to your Yearly Meeting, now near at hand

Our Baltimore Committee is in favor of continuing the present matron at Work Six months, which will give her all the Summer months during which time we feel confident She will make a favourable impression, and prove, what we, who have visited these Indians and witnessed the deplorably condition of their houses have long advocated, that this work is absolutely indispensable.

The Cost of the Six Months will probably be \$500. this will allow \$50. more to provide Such little matters as the mature may need, amongst other articles She needs Soap, a good deal of which She has already distributed. We sent in flower Seeds, which she has had planted and which pleases them very much, medicine for the Sick and food for them also, is needed. -

We feel that this outlay in behalf of the Indian is Small Compared with the amount contributed by our Orthodox brethran whose
