

Marion Cronk Fonds
Letters from Folder 4-2
1889 - 1893

Archives: Folder 4-2

This folder is held by the Canadian Quaker Archives and Library in Newmarket, Ontario in the Marion Cronk Fonds. The Marion Cronk Fonds is a collection of Quaker documents and records of the Hughes, Cronk, Bowerman and Ogden families, primarily in Prince Edward County. The finding aid for the fonds is [available here on the web site](#) of the Canadian Yearly Meeting Archives.

These letters mostly involve the travels of David Fairchild Ogden. He was educated as a dentist and travelled widely using his skills wherever he went. His sister is Marilla, the wife of John Cronk. David Ogden dies in South Africa in 1891 and John Cronk deals with the estate for several years. Many of these letters deal with the estate matters of David F Ogden. Others are from various members of his extended family. The letters have been transcribed from images of the letters by Doug Smith and Carm Foster under the coordination of Randy Saylor. They are recorded in chronological order.

This transcription was posted on the Canadian Yearly Meetings Archives web site. By agreement it is now posted on Canadian Friends Historical Association (CFHA). It is made freely available and supports search, cut and paste. CFHA will officially grant linking privileges to organizations that support this free access. CFHA wishes to express its gratitude to those who worked on this project.

Dear Madame:

I have been informed that you are a sister of D^r. D. F. Ogden, formerly of Bogota So. Am. who came to this City not long ago to practice dentistry.

He wrote me from that Country and I at once advised his coming here where he at once established a good practice. A few weeks ago I was surprised to learn in a notice published in the newspaper that he had gone to the hospital and would notify patients when he would resume practice. The next account was of his death which occurred on the 25th ult. I attended his funeral with others. Anything you may wish to communicate by letter of ???? will have my attention, particularly facts concerning relations, his proper domicile in the U.S. and as to disposition of property

Dear Sir: S. Africa

Your kind notice of the 2nd June came to hand this evening. It brings us soreful news — we had a ~~form~~ letter a few days ago from one E Munnick also the Cape Times that gave us Notice of the Drs sudden death and buriel.

Mrs Cronk is away to ~~one of her~~ state the sad news to one of her sisters — will probably be gone a few days. So I haste to send you a short note of a few facts. I believe it becomes your official duty to look after ~~the~~ the effects of all American Citizens who die without some relatives or friends (~~in your juristeds?~~) to do the like duty.

Mr Ogden's death is the first break in a family of ten children, six girls and four boys — their ~~old people~~ parents are boath dead ~~now~~ some years since

His proper domicile is Boulder Colorado U.S. He wrote Mrs Cronk some tome ago inclosing an envelope with his address on it, in her care to be placed in the Bank here for safe keeping and not to be opened until after his death. The package was placed in the Stepdem? Bank Picton. and remained there until we got notice of his death last Monday the 6th, when it was taken out by myself and opened in presence of Mrs Cronk and one of her sisters ~~and opened whiehed~~ it proved to be his Will

[113]

and your humble servant who is pening these lines was appointed Executor of the same. I have not proved the Will as yet, but will do so in proper time. if no other will turns up at latter date. In the mien time I would say that this, as to the disposition of his effects in Cape Town. All of his clothing ~~Books~~ Books letters, (including thos that have reached him since his death) Photoes watch and other like effects be packed up in his trunk and sent to by express to my address. He must have some ready cash to pay funeral and like expenses and quite a large amount standing out to collect —

And two shipments of good which would not reach Cape Town until after his death — shipped from the S.S. White dental Mfg Co of New York, which I paid for — which may be sold together with his tools and office furniture and discharge his liabilities at the proper time.

I do not know just what to say, as to how to have it done, or what I should say to you. I will see my attorney and write you later on if necessary. His Will authorizes me to sell all his property and pay legitees.

Many thank for your kindness in attending his funeral &c

Most truly yours

U. S. Consul, Cape Town, South Africa.

Dear Sir:-

Your kind notice of the 2nd June, to Mrs Cronk, came to hand this evening: it brings us sorrowful news. We had a letter a few, days ago from one Miss E. Mumick of Green Market Square, Cape Town. We also got the 'Cape Times' of May 28th. that gave us notice of his sudden death, and of his burial.

Mr Ogden's death is the first break in a family of ten children, six girls and four boys. Both their parents have been dead for some years past. His proper domicile in the United States was Boulder, Colorado, where he still has considerable real estate.

He wrote Mrs Cronk some time ago, enclosing a sealed envelope, with his name upon it, with instructions that it should be placed in the Bank here for safe keeping until he called for it or until his death, and not to be opened until after his death. The package was, placed in the Standard Bank, Picton, and remained there until we got notice of his death last Monday, the 6th of July, when it was taken out by the writer at Mrs Cronk's request, and opened in her presence and in the presence of one other of her sisters. It proved to be his Will, and the writer, John H. Cronk, is named as sole executor of the same. I have not proved the Will as yet, but will do so in proper time, if no other will turns up of later date.

The will is dated 2nd Nov 1889, and was executed at Boulder, Colorado. You may also recollect Mr Ogden executing before you a power of attorney to me which gave me authority to do all his business in America. As I have been acting as his attorney and agent her [sic] for some years. I was not surprised to find that I had been appointed his executor. I enclose you a copy of his Will, which unless you find one of more recent date, will have to be acted upon. The will was sent to Mrs Cronk from New York, when on his way to Bogota.

I have been informed that you are the proper ~~person~~ officer to whom I should apply for assistance, as Mr Ogden was an American citizen. I would like you to express all his private papers, letters, books, clothing, watch, jewellery. (including his diamond pin), photos, trunks, and other articles of a private nature to me.

Also to dispose of his office furniture and stock of instruments &c &c, together with all book accounts and other property not suitable for shipping home. There was a large quantity of stock shipped by the 'S. S. White Dental Mfg Compy, New York, to him shortly before his death.

I should like that out of the proceeds of his personal property and his ready cash in Bank or otherwise that all his funeral expenses and other debts, if any, be first paid, and the balance after payment of proper expenses, be sent to me.

I am not aware of his owning any Real Estate, or having made any other investments, but kindly enquire fully as to this, as he wrote me at one time that he contemplated making some investments at Cape Town.

Dear Sir

Mrs Cronk received a letter said to be from Dr DF Ogden’s Land Lady of whom he rented his Office rooms from ~~stø~~ in Cape Town South Africa – stating that Mr Ogden died on the 25th of May. We also received a Copy of the “Cape Times”, given the account of his sudden death and buriel. We also got a letter from the American Consul of Cape Town givend the same information and asking direction as to the disposition of property &c. You will most kindly

[87]

remember drawing on me for the amount of two Draft one for \$578 ¹² dated May 15th payable at sight. The other dated June 15th of \$28 ⁷⁶ ~~also payable at sight~~ Both of which I paid ~~at sight~~ Neither of the shipment had time to reach him before the 25th of May. Have you any other customers in Cape Town that you could sell the goods to. if so I wish you would help me to get his estate wound up.

I have written the American Consul to look after his affairs, as I was told that he was in the proper officer to take charge of Mr Ogdens affairs.

If you could recommend some good Dentast to go and take

[87 right]

the office that Mr Ogden has left and take his Tools, Office fixings and stock and fill Mr Ogdens place as successfully as he did himself, he could do a splendid business. as Mr Ogden wrote me that he had all he could do. Mr Ogdens business was running at the rate of \$5000 to ~~year~~ \$6000 a year.

If you could interest yourself in the matter it would confer a great favor on the relatives of your old friend who is now sleeping in his grave at Maitland Cape Town ~~S. Aafria~~ You can corespond with Geo F. Hollis U.S. Consul Cape Town and ~~or to~~ Miss

Dear Sir:

I have your letter of July 10, enclosing copy of the will of the late David F. Ogden. I am sorry that you did not think to have the copy properly verified by attestation of Justice, Notary, a letter, a U.S. Consul. As the copy I have will be poor? to me in settlement and as there is no probability of another will being found, I will keep this and ask you to forward me another copy, properly attested and signatures of yourself and others (not Mr Ogden) authenticated. By the time of its return shall probably leave all things ready for immediate transmission to you, and I will acquaint you by mail of the way of forwarding property, paper &c. I will instruct all forwarding agents to inform me of the arrival of any goods addressed to D^r Ogden and make such disposition of them as will be for the best interest of the Estate.

I am, truly Yours,

P.S. I would advise that you prove the will, and

send with attested copy a power of attorney to me might be well as English officials are rather hard to deal with, our treaties are so meager.

My dearest Mrs Cronk

I do thank you so much for y'r dear, kind loving answer, it was a long time coming, but you cannot help it, with such long distances there is a great delay I know that when you miss a post it has to wait for the next & that occasions it. Gratitude & kindness always touches me deeply, before words, tears flow & I cannot stop it I have a tender heart & wished I lived near you d'r Mrs Cronk but as it cannot be on this side of the grave, let us pray together though seperated where as we have it in Rev. 21 – 4 which I shall not quote, because it will make this letter too long I daresay you know it by heart I should so much liked to have had

2

Miss Cronk here, even after poor d'r Mr Ogden's death I was still in hopes that she missed his letter & that she was on the way, the estate would have paid her passage back had she come, they told me so

His bedroom is still unlet I actually kept it for her, of course it was ordered so, by an Allwise Director, but had she come I would have had her introduced to the Heugenot Seminary also at a Wellington it is a beautiful country Town most of the teachers are Americans as also the lady Principal Miss Ferguson. She is a superior lady & a bright christian it is the largest School here Mr Ogden worked for the young ladies at that seminary, they would have taken her whoever it was to be so& must be content to live apart so may God bless her is my heartfelt prayer & wake her as happy

3 [inserted later]

elsewhere, as she thought of being with her uncle. I have now your letter before me to answer y'r many questions. Do not despair & say "never never see him again" if he would but be sent to visit you in y'r sweet sleep as he was sent to me & you will not doubt but that he is happy. On the night of the 25th July I saw him standing outside. This front stoep seat two steps underneath the steps just in front of this window we happened to be to-gether, he stood behind me & I in front he was dressed in his best black coat, high black hat & gloves all in black, his face had a most beautiful expression, full & nice, quite different to what I have ever seen him look over his left arm he had touched me on my shoulder looked at me & laughed with an expression, so happy, so pleased

4 [inserted later]

& said you have done well I walked on he disappeared I woke & it was but a dream imagine my feelings, do not think me superstitious I am not, I always put such things far from me, but in dreams we are taught to believe

The first day he kept his bed when he got ill I dreamed that I stood inside this place in the passage little higher than my door, he came towards me, put a snowy white hand on my cheek deathlike in colour. I looked in his mouth & his teeth were all black & decaying I put the dream away from me I guessed it to be death I would not believe it you know the rest, was there no truth in that dream, mark the difference in the first dream he is inside the house in the second he is outside, no more of this place, let us d'r Mrs Cronk reverse it & faithfully believe, that instead of

5 [inserted later]

3

black he is in white the expression of his face was not as he left me haggard & worn & as I saw him stretched out when a corpse but full & bright & looking beautiful Mr Ogden was a deep thinker very reserved you could never get to the bottom of his way of thinking I never had a chance of speaking to him of his soul, he was always so busy & worried & I never for one moment thought that his time here was to be so short believe me I would not have put off speaking to him but I more than once told him & reminded him of that blessed example, commandments, sacrifices for us, that whatever favor I did him I did it not for payment & applause, but for my d'r Lord's sake, he was to accept of it In the bath here there is a glass door leading into the yard through which he had to pass daily to the back

6 [inserted later]

for his benefit I put up several loving & promising text cards which surely must have touched his heart I was wondering daily & made sure that the Lord loved him the way he prospered I cannot go into detail it would take me too long but this house was destined for him & prepared for him as a loving Father would provide for a child even paper & painting new, on the walls, I not only prayed for his earthly prosperity as long as he was here, but day by day up to the morning of his death prayed that the d'r Shepperd would gather him into his Heavenly Fold as a lost sheep who has wondered & strayed & bring him home, that very morning I wrote to him soberly? sending the bouquet I earnestly prayed the Lord that the words He will give me to write might touch his heart, do not

d'r Mrs Cronk believe in dying souls being saved when they ask you to read & pray for them in that Inquest? Salem of all times, our thoughts must be settled in that hour then we must trust & hold on that we are reduced reading & praying then will not take us to Him but implicit faith, as the woman who begged for the crumbs that fell from the Master's table & the woman who touched the hem of His garment, he wants the belief Mr Ogden knew very well that earthly power could not cure him much less save him just a week before he went to Hospital I detained him by the door to ask him how he felt he said "I am much the same & like you I do not believe in doctors of course meaning that only by a Higher Power he could be cured If he had been with

8 [inserted later]

his relatives he may have had a strong desire to live longer If I had known he was so bad I would most assuredly have gone out to see him & then have upset him it was better he had no one he knew, I never attend service but ask the d'r Lord to engrain by His Holy Spirit on my mind the lesson or discourse I am about to hear & so often remember beautiful sermons many of them I shall remember to my dying hour, three years ago O heard a sermon preached by a Wesleyan Minister on miracles, the preacher said that if we think the time for miracles has passed we are very much mistaken for instance answers to prayers is one, when earnestly & truthfully offered & that he had heard a dying Christian exclaim that he expected to meet with three miracles when he came

to Heaven the 1st to meet whom he never thought of meeting there the 2nd not to meet whom he thought of meeting there & the 3rd to find himself so great a sinner in Heaven now in this there is great truth I have also heard one of the Professors of the Theological Seminary preach on the life of Samson that according to the old testament Samson was a religious man, but according to the new he was far away, but God searches the depth of each heart & knows what is hidden there. He read the good that was in Samson & when he came to himself in his blindness & sat grinding in the prison house he had time to repent & pray to his God for forgiveness his prayer was accepted because of his faith the preacher also compared a thoroughly truthful prayer to the pure gold that is

hidden in the depths of the earth so let us trust it was with y'r dear departed brother Mr Ogden was a deep thinker I think I have written that before he went to Hospital he kept his bed for two days the servant received the order from him not to admit any one in his own words "I do want to see a human being" he would be alone & asked for rest & quiet, he use to attend the Wesleyan Church it is on this square, only a few steps from this place Mr Ogden scarcely ever went out sometimes to the working men's meetings in the evening to make himself known to them once I was told he went to a theatre in the middle of the play left it, he never touched liquor he was not acquainted with any women his servant came at seven in the morning & left here at six in the evening during his stay here he was

three times sick, each time I offered him the boy who works for me to sleep in his room in case he wanted assistance at night I did not like the girls to wait on him when he was in bed I think he wrote to you he had rheumatism in Feb – the boy slept in his room & rubbed his leg & did for him all he wished to have done, he had a very straight life as long as he was here I can assure you I told him when first he came, that I was very particular & exact, so he did every thing to oblige me Mr Ogden was to me an invaluable lodger he brought me what I value above gold & silver viz – sweet peace & rest, he never intruded or forced himself on me, for that reason I admired & respected him so much, he one day asked me why I did not let all the rooms upstairs I said simply because I am paying for peace then a month after he engaged all my rooms I used to have lodgers in from

12 [inserted later]

time to time but I found that it interferred with his many visitors so I gave it up, one afternoon he ran downstairs without his coat to see me before I locked evry door, to borrow a sovereign he was in the habit of doing it when he had not change enough, but he apologised ever so many times because he was without the coat Be assured Mrs Cronk that y'r d'r brother had a respectable funeral & has a very respectable grave I have been to it he is buried right next to an American one Mr Sessions somewhere from the United States he died in /85 & has a very nice stone Mr Ogden's grave has been purposely put close to it, for as the Superintendent Mt Hutt tells me that when a stone is put he would advise to bring the two graves sin? [set] together like a low cement wall is always built round & enclosed with a black iron chain Mr S. has that round his; so

it will not be much to join it together I have inquired for you, you buy a nice placing stone from £ 3-10 – to £5 & for inscription 7d/- the doz letters, there is a beautiful projection with our tree in full blossom just between the two graves at the back of it I wear?? & the pretty branches in flower hanging over & they asleep so quiet underneath I send John a little flower of it & a little piece I shall enclose to y'r d'r sister, the cemetery is kept in fine order & the graves very clean his grave is filled up quite high two wreaths of everlasting flowers are on it given by those who attended his funeral one was given by the Dentist Hutchinson he is also an American he told me that he followed the funeral with a little souviner He is the gentleman who left his card I mentioned to Mr Ogden in that letter you have when he was at the Hospital The burial ground is at a place called Maitland on the

Flats you have to drive out, or go by train rather far from Town; Do not think dearest friend that I really had a profit in money out of y'r late brother far from it (I lose by him) our thoughts are our own & you have the right to come to that conclusion that he paid me a high rent & for that reason I so much regret him believe me that he did not & it was certainly not his fault when he came in answer to mine & asked for terms I made the rent as low as I could because he came here risking and incurring so much expense not knowing what kind of a Dentist he was I pitied him a year or two ago one Mr Bell a Dentist opened on this same square he was obliged to leave he could not pried? a practice so I felt for him & thought I would meet him & do for him what I could if he had lived longer everything would have been

15 [inserted later]

covered but alas he was called away & there it ends I carpetted all the floors it cost me nearly twelve pounds whereas I only got a pound a month profit from him everything is second hand now at sales things are given away here, the lot will not fetch twenty shillings if sent to sales, he was so honest and just that when he left on the 8th of May he paid me the rent in advance little did I know it would be the last that I was to receive from him when he handed me that last cheque the day & hour comes before me like the day of yesterday & tears blind my eyes as I am writing it to you & my heart is so sore, he employed so many different hands, each one had a little profit out of him my tears fall

fast when I think of it I always consider the poor I know what poverty is d'r Mrs Cronk I was poor myself & my late mother was once rich through mismanagement

16 [inserted later]

of others she lost all & the Wise God called me to support her to work for her for many years the brothers were too going after her after her death I had my sick delicate sister on my hands to the day of her death between that I was matron at the Young Women's Christian Association I had the management of the whole place Will you believe me God Almighty sees me writing this that I worked there three months for nothing, not even my boots or washing paid me there are two ways of working I did all the medical work out of charity stayed there a year they got Christian Workers from England then I left, I worked long for a brother to help him on I can do any work in any capacity wherever I am called that of course is a gift I receive from above when my sister died I came here & had to give Mrs Murray an allowance whose business

17 [inserted later]

it was on acct of this business always crosses to drag along with me then Mr Ogden came he suited me, pleased me, fitted in the place to my taste when the Lord called him & I stand alone again in the short sketch I have drawn mine has been & will be I think a cross life I never had time to think of, or for myself I know not whether I shall after this have strength to stand another trial His Word again answers, as y'r days, so will y'r strength be Mr Ogden suited me as I have said in what I value most peace & rest. I found that in him & reckon that as my all. His bedroom was the one next to mine overhead so that when everything was quiet at night I could hear him distinctly throw down his boots for this house is lofty & has an echo & knew he was going to bed, of a snoring I could hear him moving about & knew when he would be down to pick up his newspaper

18 [inserted later]

which the carrier always put in underneath the front door he would then open the latch for the servant to come in when ever she appeared he would go to the back & then upstairs after that I used to open my door & go out, but seldom or ever before he had been down, every night & morning I miss the sound of his creeky boots I always knew him by that, he had a heavy firm step, as I was one morning thinking of this accustomed sound so familiar I sat on the edge of my bedstead crying & wondering why this had happened when I was at peace & rest, a sure & certain feeling came to me as of a voice in answer to this question do you remember praying the Lord to take everything if it so pleased Him but to leave you Jesus Christ so He has taken Mr Ogden I could not say a word to it I was mute with surprise, for

19 [inserted later]

it is so. On the 26th Aug it will be three months that he has departed this life, not a day as far as I can remember as I look back have I spent without having shed bitter tears especially at dusk when the house is quiet, do I miss his step, for a whole month the estate kept his rooms because as you will understand from advertisements I shall herewith enclose, an inventory of his dental effects had to be taken, which took up some time, they could not hurry it over & besides time was required for the tenders to be sent

in A young man who is no more a Dentist than I am asked to rent some rooms here, which I gave him, but people come only to the door, to ask for Dr Ogden or is there another coming otherwise not, he worked for several at Wellington they have been her twice to ask is there a successor coming —

I little thought that when I wrote to him at the Hospital just

20 [inserted later]

eight days later I shall have to practice myself what I preached to him viz; to look to Him our High Priest in our affliction

You will help me in y'r prayers d'r friend we want one anothers help & assistance there; with all my trials I tremble when I think what would have been my sad fate in the solemn hereafter if I had not that glorious Hope held out to me "Come unto me all you that labour & are heavy laden I will give you rest" In my bedroom I have a grand picture framed His sufferings in the Garden or rather agony where He kneels & prayers His Father to let if possible the cup pass & the angel comes half way & holds the cup before him to empty & on it the Cross the figures are beautiful (according to St Luke's Gospel) the glorious light from Heaven shines round Him & at a distance the three disciples are asleep

21 [inserted later]

then at a turn you see the band with torches & lights to take Him that also gives us much strength I leave whether I will or not to obey His command, you cannot be my desciple if you do not take up y'r Cross & follow me He also adds daily that makes it heavy so each day we finish here we can rejoice that we have pitched our tents a days March nearer Home You ask of my Nationality I am an Africander entirely Dutch, we are educated in English here & mostly spoken Some farmers here do not know a word of English a farmer from a Village called Paarl came to ask Mr Ogden's advice I had to interpret to him I am not boasting or saying too much but it is the general opinion that the Cape ladies are very social & most refined of course there are classes of women as well as men & wherever you go it is as your? country as well, the lower class are rough

22nd [inserted later]

My brothers in the Transvaal are farmers & diggers it is exceedingly loveable of you to be so interested about their & my welfare & I do thank you for it so much I have a brother I am particularly fond of, he writes that he may come to C. Town on a visit to see me when I think of the goodbye I wish that he would change his mind & not come I have that week heart I cannot part from anyone I like it will only break my heart again I would rather meet him on the Shores of the Bright Crystal Sea he has many kind friends around him I was there once & where I left him he still is known he is not badly off I came away because I wished to see my mother before her death. Transvaal is a rough dull, country men can shift & turn about, that you saw in y'r late brother.

23 [inserted later]

but with women it is different & this being my birth place I prefer it & also my mother & sister buried here he has begged of me to come to him to live when you have once been to a place not quite to y'r taste you do not seem to care to go back to it, you do not meet

with any comfort there what ever travelling most awkward I have also an independent spirit, as long as I have health & strength I like to keep myself & not put myself under obligation not even to a loving brother, I like and love work I always work & do all my own work I am very energetic & very economical y'r first letter I took in my hand I read y'r character I am something like y'r self Mrs Cronk. They do not speak a word of English there, it is a Dutch Republic & so is Orange Free State the late President Sir John Brand was my cousin so I am well acquainted with all those places I do my best and battle on & fight the good fight of faith to win the crown

24 [inserted later]

With regard to y'r late brother's estate I have seen the executor Mre [Master] Mr Currey he is in every way a very nice gentleman to deal with he tells me that he wrote to Mr Cronk on the 28th, or 29th of July what of Mr Ogden's personal effects whather to be sent on, he has the boxes in his office I think it is well seen to, after the things were disposed of, they had to secure his boxes for they are not only responsible, but had to give up the rooms as well. In a case of death everything goes by law no right, no kindness is considered, but law only Mr Currey also tells me that he should like to have the clothes over to the Consul but that Capt Hollis is greatly offended that the Master interferred for he thought he was the proper administrator & that he had written to Mr Currey to say he had received a

25 [inserted later]

copy of the Will left by the late Mr Ogden I then told him that I had heard Mr Cronk was the executor anyhow he intends as he said writing to Mr Cronk by this same mail as I am writing, so you will hear from him I was three times yesterday at Capt Hollis's office most unfortunately he happened to be out each time I called I shall not be able to go to day as my time is too limited but will do so at the earliest when last I saw him he touched upon that business & appeared to be very angry I should like to hear how much he has to say now. The winding up of the estate will still take some time at which I reckoned on from the beginning & as I expected to hear from you long before the time I did not tell you when I wrote that I have a book of Mr Ogden's an American work of Bible questions & answers

26 [inserted later]

for daily use If not asking too much will you allow me to keep it as a keepsake from him & I shall in return put in the box going from here my own Bible I have in use I have underlined with pencil many encouraging promises to build our hope on & also to make His Word plainer to those who find it difficult it is really a difficult Book to understand & y'r d'r children might like it I have Mr Currey's permission to put in the box anything I wish to send so let me have y'r answer at once if I do not hear from you before the things go I shall keep it and send you mine will take it that the Lord agrees to it. — You also ask about the Johnstons they are American Mr Ogden boarded with them but poor man if it is true what I heave heard than

27 [inserted later]

he paid high for is board & their kindness, they were kind to him I know, it is unChristlike to prejudice y'r mind against them it is not my object, write to them to thank them for the kindness they showed Mr Ogden but at the same time will tell you what I have heard to open y'r eyes & Mr Cronk being Executor will find out the truth or untruth of the case it may not be quite so bad. —

A gentleman named Mr Young? was very intimate with Mr Ogden he did all his writing working & with whom Mr Ogden became acquainted at Johnstons place told me that by exaggeration & flattery they got round Mr Ogden put on him Mashonoland shares (Gold Fields) not worth a ½ to the amount of £250 whether it is so you will have to find out, I hope not if so am very sorry since I heard of it I have grieved about it, please do not complicate me I do not wish to have any

25 [inserted later]

thing to do with such things it galls me to hear of such wickedness. Mr Berrange? that is Mr Currey's clerk I see now & then so questioned him he told me that Mr Ogden has the shares at least the estates have it in hands he did not say how many but that they were worth very little I offered to find out what I could for you & I always keep a promise so I am fulfilling it or I would not go to such an extreme. Mrs Johnston would if she could have done it, taken Mr Ogden from here entirely, to live in their place as they are situated he could not, so she tried to find a suitable house A lady Mrs Littleworth had one to let & told me herself she brought Mr Ogden there; When they came toward evening, the house was taken by a Mr Hanger that very afternoon

29 [inserted later]

so the Lord decreed otherwise it was not to be. After Mr Hanger had been there two months Mrs Littleworth found him to be a man she could not get on with, she came to Mr Ogden to ask him would he now have the house as she did not like Hanger (this all comes out after his death) Mrs Littleworth positively told me so herself. “No Mr Ogden said I get on well with Miss Munnik so will not change I intend remaining here” Mrs Johnston went so far as to offer Mr Ogden to advertise for him for servants he told me so himself whereas I keep a registry office & could & did supply him without charging him any person living here in this house ought really to take servants from me & he was glad to do so, but she interferred, she had no business how would it be if I kept a boarding house & asked her boarders to come

30 [inserted later]

to me I gave Mr Ogden three servants 5s/ is my fee, twice he put 5s/ - before me which I declined to take he laughingly took it back & said “when you can get money you must take it No I said what I do for the Lord's sake I want no payment for I could fill another book for you but will stop here, as for Mr Johnston I did make up my mind that if Mr Ogden returned from Hospital to tell him of what man's tricks Oh it galls me still if I think of him y'r brother was so different in behaviour the nearest he ever came to me was when he shook hands with me the day he left here I always respected him for it I was going to open his eyes before Miss Cronk came perhaps he knew something about it, but would not back himself out & so made

31 [inserted later]

the best of it until he was better what could he do, we have to hide a lot of things at times to keep up appearances conscientiously I can say that I would not trust myself five minutes alone with that man whenever I saw him coming I actually put the boy on the watch & would lock the door when he was near or when visitors in I would beg of them to remain seated until I had answered his questions man can never say what man is, but women can; anyhow whether Mr Ogden paid well or not they were kind to him what I have seen I am sure of it & may be they will be glad to hear from his family perhaps that Mashonoland business is exaggerated I hope so, it may be quite different, people will talk & find fault, the world gives us that they are well to do & no family, he keeps omnibusses to convey passengers to Green Point, Docks, Gardens

(32) [inserted later]

& a Boarding House besides their address 31 Castle Street C. Town I have wondered how you make my name out poor Mr Ogden always spelt it in writing as pronounced Meunik it is spelt Munnik but spoken out in pronunciation like Meunik so goodbye d'r Mrs Cronk I hope you will be satisfied with this long acct which I have endeavoured to make as plain as I could; you will dearest always remember me in y'r prayers before a Mighty Throne of Grace to keep us both day by day until we meet in glory
If I have time will also write y'r d'r sister a few lines, if not & I not & I live will do so next week

Goodbye With fond love

again y's sincerely

Dear Sister

your two letters recieved & contence noted you seem to think that I have done nothing towards Saving our Brother & property you had better look through all of his life & See who has don for him who was it that Saved him from the states prisens & who was it that found him raged & dirth & Clothed him the one that don this a good farm By so doing & he did not have a Brother or Sister that would help him to a Dollar when he was in trouble I am the onely one that went to him & loosened the Chains that Bound him & By so doing I partly Saved him from disgrace & Started him In the right path & onely a Short time Before this he caused

our Dear Father & mother to mourn his Death & why Should we mourn the Second time I certainly could not mourn nor rejoice for what he has left Behind him for what does a man profit if he ganes the whole world & looses his own Soul & when David came to

Denver he persuaded me through false promises to come to Denver & after I got here he tried hard to cheat me out of what little I had & partly succeeded through the confidence I had in him & when I refused to give him his own way he got very angry at me & left without coming to a settlement & the last two months that he was with me he drank 25 gallons of wine besides the whisky & he injected morphine in his arms until they were covered with scars Dear Sister you know but little what I have suffered through him you can never realize it nor I don't care to have you the reason I say what I have to you is because you don't give me credit which is due me – as to the property here which our brother has left behind him I will be satisfied if I can get what is justly due me on account the reason I did not answer John's letter was that I did not think it a very brotherly letter where he forbids me not to steal anything off the place

Dear Sir: -

Re Dr Ogden's Estate.

Mr John H Cronk of Wellington has handed me your letter to him dated 29th July and has requested me, as I have been acting as his solicitor in this matter, and have full knowledge of the facts, to give you what information I can in respect to this estate.

Before leaving America Dr Ogden sent some private papers to his sister Mrs Cronk with instruction as to their safe-keeping and with the further instructions that they were not to be opened unless she should hear of his death.

As soon as Mrs Cronk received the sad news of her brother's death from the American Consul at Capetown, she opened the papers aforesaid and found among other things the Will of her late brother Dr Ogden. By the said Will Dr Ogden appointed John H Cronk his sole executor.

Mr Cronk immediately wrote the American Consul sending him a copy of the Will and giving him full instructions as to the disposal of the estate.

Mr Cronk is the proper party to whom you should send any surplus there may be in your hands of Dr Ogden's estate after you have paid all his liabilities and it will not be necessary for you to enquire for next of kin. On the receipt of a statement showing your receipts and disbursements in connection with the estate together with a draft to balance the account Mr Cronk will, if the statement is satisfactory, release you from all further responsibility or liability so far as the estate is concerned.

Mr Cronk starts Monday for the City of Boulder, Colorado, to dispose of Dr Ogden's real estate and settle up his business in that country. I may further say the Mr Cronk was not surprised to find that

[appears to be a page or pages missing]

Of course under these circumstances you will not expect Mr Cronk to send you any balance of Dr Ogden's moneys, which are now properly in his possession, but on the contrary you will see that he is the proper party to receive any balance you may have in your hands.

The personal effects of Dr Ogden including his jewellery, private papers, letters, books &c &c Mr Cronk would like placed in one of his trunks and expressed to him.

There should be more jewellery than you mention. When he left America he had valuable rings, a diamond pin, a gold watch and other valuable jewellery, and Mr Cronk thinks he had a nickel watch as well. By calling on Capt Hollis the American Consul you can ascertain what Mr Cronk desires should be done with the personal effects &c. I presume you got the goods referred to in your letter as having been ordered and paid for Mr Cronk. These were valued at about \$ 500 [500 hand written]

Dr Ogden corresponded very regularly with Mr Cronk giving detailed Reports of his business from time to time, and according to his Report he must have had quite an amount outstanding on his books as well as cash on hand. His stock and instruments should be worth about \$1000.00 – and his liabilities should not be very large as he was always in the habit of paying cash.

Mr. Cronk is very desirous that the estate of Dr. Odgen [sic] at Capetown can be satisfactory settled without his having to make the journey out there and trusts that between you and Captain Hollis the American Consul the estate can be finally wound up without much delay trouble or expense

Yours very truly
J. Roland Brown

Dear Sir:

I have made protest to the Master Superior Court in respect of certain actions of the Executor appointed by him. I learn that this Executor has written you, and it would be well to forward me his letters in copies.

There seemed to be a method to keep me as much in inquireuer? as possible as to the Estate under settlement and I am determined to find the bottom if possible. Where the gold watch went to for one thing, and the diamond pin, and perhaps you may have in mind other things which please

name to me. Though the paper of naturalization could have been found in one day, it was not till Aug 3? or about that it was finally acknowledged. I could have had the estate settled long ago at slight expence, but the Colonial law gives this man six months and what the expense will be I know not.

I shall make report of the matter at the proper time.

Truly Yours,

Dear Brother: and family

I arrived home last week from the West.

Found all well and up to their eyes in the work sowing fall wheat fall ploughing and picking apples.

We intended to call on you, but there was a difficulty in getting a layoff ticket on our returns, as our tickets red no stop off allowed. on that and of

[153]

our journey.

we got to see John and stayed over Sunday and Monday. Parkeys wife had a young son while we were ther, we left boath doing well. Business , I put Davids will in the Probate Court in Boulder.

And the 26th of October is set to dispose of it, and grant Letters Testamentary thereon. I am named in said will as sole Executor. The law of Colorado requires that I shall give security for the proper administering of said Estate and Bonds must be found in the State. I have made arrangements with my solicitor in Boulder to

find the required security in the State of Colorado on my getting the Leggities to signe a Bond with myself for a like amount mentioned in the probate.

Marilla will sign; Jane Manerva [Minerva] and John has already signed. And if you are willing to follow suit I will come ~~that way~~ there on my way up to Boulder about the 20th of October the whole Bond is only ~~thirt~~ thirteen hundred dollars I think Jane Manerva told Alice how the Will run – your share is one sixth of the ~~antire~~ estate (on division)

[154]

If I come that way I will bring a copy of the Will for you to read for your self.

I have only the one copy and cannot spare it as I have to have ~~one~~ it to refer to very often.

You will kindly answer me on receipt of this and oblige yours truly excuse hast as this is the third letter I have written to night and it is now eleven o'clock.

Canada

Dear Sir, re Est D. F. Ogden

I have your favor of the 29th and note that M^r J. H. Cronk has handed you my letter of the 29th July ~

I also note that the late D^r Ogden has left a will & appointed M^r Cronk his Executor; according to our law I cannot remit any surplus proceeds to M^r Cronk without the permission of the Master of the Supreme Court, to whom we are directed to pay any funds awarded to unknown Leins, and moreover our Government is Entitled to succession Duty upon any Funds distributed; unless therefore a certified copy of D^r Ogden’s will has already been sent to this

2.

Colony, I would ask you to let me have one, so as to guide me in the distribution of the surplus funds if any, as the disposition of the Testator would of course have to be recognised.

As D^r Ogden appears to have had real Estate in America, which you state M^r Cronk was about realising, I may as well take this opportunity of informing you as his Solicitor, that D^r Ogden appears to be liable for a certain debt in the hands of “ M^r Alfred T. Bacon, Box 893, Greeley Colorado – “ amounting it would appear to some Thirteen hundred dollars; will you arrange to Settle said debt on your side; for your & M^r Cronks information I Enclose an “Instalment note” found amongst Ogden’s papers, which was sent him for Signature by Bacon; if M^r Cronk arranges this claim there will be a considerable amount of assets over liabilities in my hands.

I have today written M^r Bacon referring him to you. ~

3.

As stated to M^r Cronk, the only jewelry which has come into my hands is a gold chain & silver nickle watch – D^r Ogden sold a gold watch during his lifetime I believe ~

The personal effects could not be sent to America before I know that the claims do not exceed the value of assets & will therefore retain them until hearing about M^r Bacon's claim.

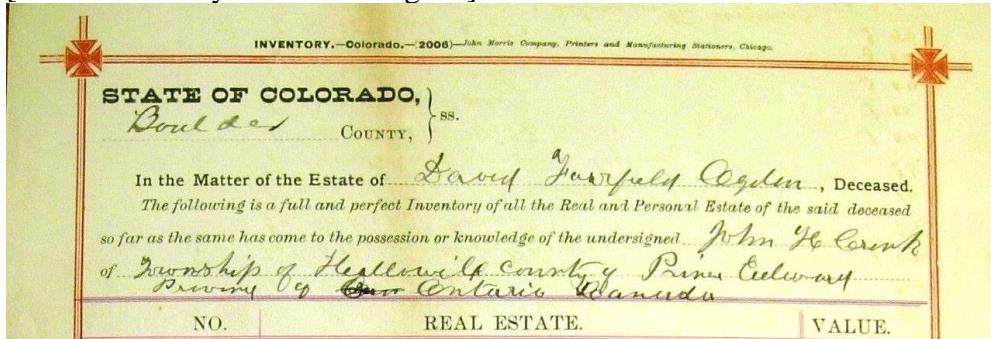

Capt Hollis the American Consul has put in a claim against the Estate for Twenty pounds for as he says services rendered, I have asked him for a specified account, but he informs me that it is impossible to give any specification, as it is a charge he has made for working up a business for Ogden, getting him a connection, and introducing him &c &c, I should like to know whether M^r. Cronk or D^r Ogden's relations wish this paid; I may mention that letters are in my possession showing that D^r Ogden was on not at all good terms with the Consul.

Yrs faithfully

WA Currey ??

Dear Brother

I arrived home last night from Boulder. Not feeling too well; as I had been ~~unwell~~
~~ailing~~ quite ill all the time while away.
I found that my agent in Boulder had got a good man on the place for one year at \$250.
He paid spot down \$100. the balance in twp payments of \$75. each. viz \$75, March 1st
and July 1st. 92

[110]

Norman had got away was living at Eaton Rapids? in Michigan. I got a letter from him
saying ~~that~~ he arrived on the 6th of present month and liked the place very much.
He also wrote me that he had no account to settle with the Estate. So did not send me any
account of sales of produce from off the land for this year.
He seems to take a rather narrow view of what the Will gives him, and is holding the
earnings of the Estate after Davids death, which belongs to the other leggitees.

I have written him, explaining the matter ~~to him~~, very clearly.
Have not had his answer yet. I hope he will not give me any trouble about it. I made G.S.
Ogden a visit on my way up, found them well.
I was feeling so unwell on my return I could not think of calling on any body. ~~on my way~~
~~home~~. I ~~got on with~~ advanced the business ~~very well~~ an other stage, done all I could do
~~now~~ until some publication was done in the papers &c I did not fall in love with the
probate Laws of Colorado by any means it cost too much, to suit my ideas of justice.

[109 left]

Marilla is preparing for bed I must say good bye and finish later on.

Sunday morning November 1st dark cloudy weather and the wind blowing a gale. Marilla
has breakfast all ready I shall not close this up until Monday and perhaps Marilla will be
able to write some and put in too. She was writing to Alice last night, until she got so
sleepy that she could hold out no longer and had to give up and go to bed.
She has all the work to do and ~~she~~ feels almost worn out ~~all the~~ by time. My best wishes
to all the rest of the family
As ever your brother &c

Cape Town. South Africa.

Dear Sir: -

Re Estate D. F. Ogden.

Your favor of the 30th September was duly received. The debt to Mr Alfred T. Bacon of \$1300. referred to in your letter, represents a mortgage on property in Boulder, which is near Grealey, Colorado. This amount is bearing interest a 10% payable half yearly, and as it is not certain that the property can be sold to advantage at once, Mr Cronk is anxious to get the amount coming from the estate at Capetown as soon as possible to apply on said mortgage and stop the high rate of interest.

You will therefore see that the surplus in your hands should be paid to Mr Cronk as executor, and not sent to the several legatees untill all debts are paid: and in fact whether he required it for debts or not, I submit the executor is the proper party for you to deal with.

We note that you say there will be a considerable surplus in your hands.

As to Capt. Hollis' Claim, we cannot understand it. Although he has corresponded with us, he has made no mention of it. It has a look about it that it is not the result of any regular agreement, out rather as afterthought. We must ask you to have him prove his claim strictly according to the practice of your courts.

We will send you a copy of the Probate as soon as Mr Cronk can get it from Boulder, which may not be for a week or two yet. There has been some delay in the court there, but we hope to get it soon.

Yours truly
J Roland Brown

Dear brother & Sister

We received Johns letter from Boulder Stating he had found things out there full better than he had expected, which did not give me a very deffinate idea of how much was missing or if anything was missing. Have you heard anything Special from S. Africa Since. How did you get along out there as regards business: Did you get any

offer for that property out there, and is there any prospects of Selling it at all. If not I might try and rent it later on. Did you have a Sale while there. -----

We also received Marillias letter thanking us for the kindness Shown John I dont think we put on any extra touches or done anything different from what we have always done towards any of our friends. We will be happy to Entertain any of our friends at any time who may think enough of us to Call on us

Dear brother & Sister

Yours of Jan 18 came to hand in due Season and contence noted. Allen Seems to think that I should pay my debts as well as he. All right – Let us see, if I could only always pay my debts so easily, it wuld be like paying ones debts with greenbacks at par in Wartime. But I dont choose to di it in that way just now, at least. I think it would be advisable to hunt up Some man that is oweing Mr Allen

and Sell him that note at a discount of fifty or Seventy five or even one hundred percent or more if neccessary, for a part of a loss is better than no loss at all. I think our two heads ought to be as long as M^r Allen's is. Now John if you think it is not advisable for you to hold the note and dispose of it in that way you might take a copy of it and Send me the original untill Such times as you can dispose of it. Use your own judgment and Sell it at Some price and I will pay you for all trouble and be Satisfied. All well. Your brother.

I beg now to enclose a copy of the account which I have framed in the above Estate (which after retaining £20 to meet the cost of transferring goods from England to America sent last week) shows a balance of £160: 2: 3: and in order to facilitate matters, I now enclose an Acquittal for the Amount for your signature: upon returning this to me a draft for the amount will at once be forwarded, unless you prefer sending the acquittal duly signed and witnessed by two, to some agent here & let him receive the amount from me, but this would of course entail your paying a commission to the Agent —

Should I not require the whole of the £20 retained for expenses as stated, I will remit you the balance with the other monies —

I must ask you to let me know whether in settling? the debts of the late Dr Ogden in America you are likely to reduce the balance shown in enclosed account to less than £100 if so then no succession will be payable on the money here, but should the balance not be so reduced we will have to pay the Master of

Dear Brother

Yours of the 6th Inst to hand. I have ~~not~~ learned nothing new about Clapp, or his noat Sharing. I do not admire his style, or envy his prosperity. We are glad to learn that you are all ~~are~~ well.

This is Sunday evening. We had company to dinner and Alice and Marilla are reading. Wilford away to Church the rest have gone to bed. ~~I have got received a bill of things (Cloathing)~~

I have received two boxes from Cape town. ~~belonging to our late brother, from Cape town~~ containing trunk & valice ~~containing~~ with ~~with~~ the cloathing of our lamented brother D.F.G. no account books or letter book or anything to give me any idea or clue to what was sold or how his business was left. ~~No~~ A bundle of letters mostly from home and friends tied up together. Some photoes 5 or Six – 1 bible 1 book in bible reading. Nickle watch and the same gold chane that he had when he was there the last time. I think his other jewelery seems to be mising. That Cape Town man has apparently tryed to ~~to~~ keep me in ignorance of the Estate as much as possable. The amount of Estate Sold amounted to nearly \$2000. There is a few gold Shares not sold yet. I think they cost £250, Sterling and after taking out expences and paying debts due there is or so he sayes, £160.2.3 Sterling about \$800. I was not satisfied with his account as he did not send me any vouchers for money paid or said to be paid - and demanded a receipt in full and acquittle from me before he sent the money - my council advised me to ~~So I have~~ sent his bill and letter to the Bank where Dave kept his money in Cape Town. and asked the Manager to Check over the Bill and see that there was proper vouchers for the Several amounts so stated, in and paid said Bill. and send the balance to me. Will probably hear from the matter in about three months

My Boulder Agent informs me that the man on the place there has made an other payment on the rent of \$75. What is to be done with the clothes so I have invited all the girls to come and see them. The roads are bad and spring looks as if it was nearing now. Wheat & clover looks well. Hope that we will have a good harvest that we may have plenty next winter. "Self preservation is the is the first law of nature." You see So we may wish it well for us anyway. As I should drop a few lines to John I may now close, by sending best wishes to Alice and Miss E.B. I think Marilla is now writing to Alice love to all as usual

I have yours of the 23d Mch last, and although I received it on the 29th April, no one has as yet been to this office from the Standard Bank to examine the account in above Estate on your behalf –

Since writing to you I have heard that the cost of forwarding the boxes to you from London is £4:1:4 thus leaving a further balance of £15:18:8 in your favor, there will therefore be a grand total of £176:0:11 to be paid you or your agent.

Yes the gold shares did cost Mr Ogden a considerable amount and will watch an opportunity to sell them.

Dear Brother

Your favor of 2nd. April came to hand some time past – I have delayed answering until I heard from J. R. Ogden and Manerva Huyck about the things, I wrote you in my letter of 27th March. The one ~~mentioned~~ referred to in yours of April 2nd. ~~I wrote~~ John he elects to have his share under will. Manerva was here last week, and stayed a few days. She and

Marilla went out to see Waity. Found them there the division was talked over, and it was concluded best to divid as Will directs. And let those that get; divide as they think best. So I divided the cloathing in two equal piles as nearly as I could do, in Manerva and Marilla presence. And gave Manerva her choice of the piles, for herself and your's and John's. And then Manerva and Marilla made three piles of her choice, And ~~Merve~~ Manerva went out. ~~and~~ I placed No. 1. 2. 3 on the piles and she chose No 1 you got No 3 and John No 2. The following not divided yet. Then there was a fine over coat new (but some moth eaten). A Silk Plug Hat and Hat case. Nickle watch and gold chain Pock inkstand a pocket-wistle knife pock, pair of Cheap cuff buttons, a small Bible, and ~~quill~~ a Siged book called "Bible readings for the home circle. Of 600 pages. A very nice book. These last things can be turned into money in the family, and divide the money, easeir than dividing ~~them~~ the articles. I have had the Watch and chain valued The chain weighs 14 ½ Penoy weight worth \$18 new. Watch worth \$4. new – Together \$20. Now If you or John would rather have the them at \$20. in the place ~~lew~~ of cash; all right I can ~~and if~~ then divide, the money that the things bring around again ~~not I think I can get that amount for them from some other member of the famely connections. Would like to dispose of the other things in~~

~~(not divided) in the same way.~~ I enclose you a list of your ~~the~~ Share of divided things. So that you may get a better idea of what they are and you can give a more definite idea of who you would like to give them to if you do not care for them yourself. The Valice is the one you speak of and has A. A. Ogden on the bottom. And is your's all right. I have not had any fresh news from Cape Town. Am expecting answer to letters Sent last month, ought to get reply next month. David Elsworth was buried last week. I believe all of r folks are well as usual. We have had plenty of rain lately and things are looking fine, prospects are good.

I did not get this all copied last night So when I came to write it over I have this much of Space to Spare to fill yet, and it is raining away yet this morning Clary asked for your address, I gave it to her, so you may look for a letter from her soon. I have some pity for Clary She Says, I am glad that I am not getting any of Davids property or money I heard her make like expressions of the above quotation, on several occasions. I hope she is not trying to make trouble in the family by insinuations, or half told tales, excuse any remark. I would wish to think better things of her. I hold no hardness.

Dear Brother

Your letter of the 27th June, to hand. I have noted contence; and will try to give the information asked for, so far as I can at this present date. I shall try to answer your enquires in the order as they appear in your letter.

“ firs “what has been done with the clothes” &c. Sister Manerva came in her a short time ago and stayed a few days. I divided the clothing (according to the Will) in two piles, as nearly as I could do it, and then gave

[84 left]

Manerva the choise of piles for herself and you and George Then she and Marilla made three piles of the one she chose. Your share has been put by its self and is awaiting your instructions or order.

I may say that I cold not very well divide some few things, such as Watch (nickle) and gold chane. Silk plug hat and hat box (leather). a bible and a book on “bile readings for the home circle”. A fine over coat new, but some little eaten by moths. pocket inkstand. a pocket knife pair cheap cuff buttons . Neither of the books has his name in them

I had the Watch and chane valued they wer aprised at \$18. for chain \$3. for watch. I wrote George a few days ago that if he or you would prefer the watch and chane at \$20. in Ctead of money

[84 right]

all right. George wrote me immediately and answer saying he would like to have the watch and chain. Saying that he would soon write again more fully, I have not heard from him ~~yet~~ since. All the not divided, I thought to have them valued and ~~give~~ let you and george and Manerva and Marilla, have them instead of money, and then divide the money that they brought around again. 2nd The Cape Town affairs ~~My agent~~ Mr Currey writes me, 18th May that there is now on hand there £176.0s11d St (about \$856.25) par value. and The gold mine shares to be sold yet and added to that amount – Mr Currey says that the gold shares are of little value as yet.

3rd the Boulder property.

I wrote my agent about the place

[83]

some months ago to watch for a chance to sell the place as soon as a good chance would present ~~itss~~ . I do not seem to feel very sanguin of geting a bige price for so small a place. I am very anxious to close it out as soon as I can, the tenants time will be out this fall and I shall try to get rid of it then.

I have not had a letter from Norman for a long time. I think his address is, Brighton Post Off Colorado . I think he writes to sister Clary Ann Story.

George is in Michigan Saginaw, I think he is keeping a boarding house there, although he has not told me so. his address, is. 1605 South Michigan avenew , Saginaw, W, S.

Michigan

We have had a great plenty of rain and crops are very hevvy, a great growth of straw, but what the harvest will be is hard to tell, prospect good however.

[83 right as a gloss vertical on the top margin]

glad to hear that you are all well. my congratulations to Franklin and complements to my new neice love and best wishes to all with Gods blessing.

Dear Sister and Brother
and family

your verry kind and welcome letter of August 25 came to hand on monday morning this week we were all well, we I was just ready to go to Porthuron to look after my Box of

things when David came Bustleing in the house from Marine with a letter in his hand with the list of my things, and glad enough I was, for I was afraid that I would have to pay a Duty on them, but when you told me that brother D. F was a Citizen of the U.S. and I told the oficer at Porthuron that he was a Citizen they let it Pass without

a Duty, it just cost me 30 cts to make the entry and 55 cts express and 15 cts freight on the Boat. I found the things all right, am much Oblige to you for puting them up so nicely. Sarah Jane says ~~the~~ tell Alice that she is verry much Oblige to her for the Dried Pairs she sent her, would been better Pleased if Alice had of come with them. Fruit is dreadful scarce in this section of country, no Apples any where. Plums is 60 cts a Peck. Peaches is out of the question. I do not know what Pairs is worth. Potatoes is worth \$1.00 a Bushel. Oats is 30 cts wheat 82 cts hay \$6⁰⁰ a ton. Now when David came home on Monday he just come off the Boat at Marine to see his wife. She were up to our place on a visit, his Boat was going up the lak and he was

to our Place about 1 hour when his Boat came along and he got L. Recor to take our skiff and take him out to the Boat and it is likely that he will not see any of us again until the close of navigation. he is well and hearty his Wife and Children are well. Franklin is to work in the shop in Marine, is home once a week, we are all enjoying good health. Sarah Jane is in a great Bustle geting ready to go to Dresden to take Edith (Franklins Child) to see her Grand Parents. She has never been over to Dresden since her Mother Died, and you will Pardon Sarah Jane for not writing this time and when she comes home she will write a good long letter. our garden is not extra good on account of dry wether, you may dig down in the ground nearly 2 feet before you

would come to any moisture, now I must draw my letter to a close. we are still living in China [China Twp., Saint Clair Co., MI., USA.] as when you were here, and not much prospect of geting away on a farm. I hope you will get rid of that Estate this fall so that I can have something to help myself on a place. Give our best wishes to all enquiring friends, with kindest Regards as ever from your affectionate Sister & Brother

Says he has four notes of \$ 140, each. drawing six per cent, per annum: payable in four years, one each year. first one due next year this time I think (Decemb 1st 1892)

~~These are joint notes was given for a steem thresher ?? made by Hiram J Vincent, in Vim~~
These note wer made by two of the Vincents and one Tripp, ~~made payable to~~ in favor of Alexander Scott – given for a steem Thresher

All got them of Scott, by Scott endorcing them and guaranteeing their payment. ~~I did not see the notes~~ I have not seen the notes yet ~~nor~~ and I do not know all the parties. All wants to turn out one of the notes and pay the balance in money offers? either one of ~~them~~. the notes: seems anxious to pay yo[smear] I shall see him again next week in Picton — We may be able to get part of the note some time in January.

He claims that there is some more cost to be charged to you that was not put in when you and he figured up on the settlement.

Dear Sir I must acknowledge to a neglect in writing after I had arranged with Mr Teagarden for leasing the place another year without tools & horse @ 200⁰⁰ I had talked with him about the disposition of the implements and he was expecting a brother to come from Nebraska and so the matter was delayed & I tentavily dilayed writing you from time to time hoping to report the extension of lease & result of sale of the personal property. Well: the brother was delayed in coming, & when he did was not able to locate himself to decide what he would do &c then our cold snap froze us all up & so, procrastination became the thief of time, and when your letter came I had just decided to go & get up some “dodgers”?, & advertise a public sale & clean the stuff up – still now, to make the Sale abt Feby 1 would be better than now
I collected 75⁰⁰ from Mr Teagarden on rent, and

[160]

sold the old horse & harness to E C Nye fro 40⁰⁰ so that the question of loss by death sickness or expense of care & keeping was disposed of

Now: I realy think that to sell the tools & other stuff some time in Jany or 1st of Feby after the wather breaks up & indicates the approach of Spring would be better (We have had some very cold close wather for colo)

I shall expect to hear from you again in which you will please express yourself freely as to what you think best,

very Resp

Dear Sir,

With reference to you letter of the 1st August last, we now quote the following communication just received by us from our Solicitors, Mess^{rs} Fairbridge & Arderne, in regards to the above Estate : —

As the

fighting of this claim would have entailed considerable cost and as Hollis would make no move in the matter himself, we considered it advisable to compromise the matter, & ultimately we have effected a saving of £10 by the compromise.

"We think, as we stated before, that Capt Hollis had no legal claim, but under the circumstances of the risks attendant upon the matter & the fact that the claim could not be inexpensively contested, we have acted in the discretion confided to us.

"We now transmit to you the Liquidation account sent us by you, together with a supplementary account showing an amended balance of £189:9:1. This balance has been handed to us on the understanding given that

Dear Sir:

Yours of the 30th ultima, to hand a few days ago; I am glad that you have leased for another year and that you will ~~get~~ dispose of the personal property at ~~such a time~~ a time, when it will be most likely to fetch the best prices.
I think that I gave you a list of all the personal property on the place. Sell all and clean it out.

[162]

and send me a detailed statement of same.

The proceeds, kindly place to my audit in the National State Bank Boulder, advising me of same.

I should like to dispose of the place at the earliest favorable opportunity, and what season of the year is best to sell such property in. I shall have to be guided by your experience. And what would be the place be likely to bring. Your early attention in this subject I should be glad to get.

Then you do have some cold weather in Colorado! as well ~~as well~~ as we do here in the East. We have had some very cold weather too ~~well as~~ which seem almost a universal complaint in Europe as well as in N. America. hoping to hear from you in due time as ever yours truly
